

Test item : DNA identification test for microorganisms

Client Name			Person in charge
	Department	Name	
Address	Postal Code		
	TEL	FAX	
	E-mail		
Request for Result report by E-mail? Yes <input type="checkbox"/> No <input type="checkbox"/>			
<input type="checkbox"/> I agree with terms of service. <small>※If there is no check in the consent column, it may not be possible to accept smoothly.</small>			

※ ☐にチェックを入れて下さい。

No.	Sample Name	Bacteria or Fungus	
1		Bacteria	<input type="checkbox"/>
		Fungus	<input type="checkbox"/>
2		Bacteria	<input type="checkbox"/>
		Fungus	<input type="checkbox"/>
3		Bacteria	<input type="checkbox"/>
		Fungus	<input type="checkbox"/>
4		Bacteria	<input type="checkbox"/>
		Fungus	<input type="checkbox"/>

Please attach the Medium photo
 ※If you are sending an agar medium, attach a photograph to the following media picture attachment column and add a circle to the colony you want to identify.

Purpose of Request	・Confirm labeling ・Quality assurance ・Complaint Handling ・Research and Development ・Survey ・Other purpose ()
(Note)	

- ※ If there are two or more samples, please describe the sample name or number of this manual on the sample.
- ※ As a result of the test, it may become difficult to list the presumptive bacterial species or to specify the genus / species depending
- ※ Since this test falls under the simple identification method by DNA, it may differ from the original identification result.
- ※ If you wish to be described a name other than your name in the address of the report, please indicate it in the Note column.
- ※ **Be sure to send it by refrigerated flight so that no bacteria other than test subjects will breed during transportation.**
 Mixing of multiple bacteria is one of the risks of making inspection impossible.

Service agreement and notes

1. Sample

- We accept formal reception with arrival of both sample and request form. In addition, please burden the shipping cost of the customer at the customer's share.
- Please do not stick a small sample (such as foreign matter) with cellophane tape or the like.
It leads to breakage of specimens, making the inspection extremely difficult.

2. Inspection service

①Inspection targeting DNA

(Inspection: target microbial DNA identification test, animal / plant DNA identification test, foreign body DNA identification test, insect DNA identification test)

- It may be impossible or undetectable due to following problem
(Mixed plural kinds, incompatibility of universal primer, influence of PCR inhibitor, degradation of DNA by pressurization, heating, fermentation)

②Inspection fee at the time of inspecting / undetectable

- In any inspection, inspection results may not be obtained depending on the state of the sample etc.
Even in this case, since a prescribed inspection fee will be charged, we ask that you confirm in advance.

3. Test report

- After issuing the report, we can not respond to requests of changing sample name in the report.
- We do not make reports / document preparation such as intermediate progress
- Based on the results found, toxicity / safety assessment is not done.
- In principle, only one copy of the inspection result document issued by the Company is issued for inspection, and it will be reissued only within one year from the original issue date.
For reissue, only 1 copy is free, and for 2 copies and later it will be issued for a fee.
If more than one is required, please contact us in advance.

4. Publish English report

- We will charge 5,000 yen (tax excluded) as an issue fee.

5. About the handling of samples after inspection

- As long as you do not wish to return at the time of receipt,
we will discard the sample you sent within 2 weeks from the date of issue of the report.

6. Payment

- All financial transaction will be done on a Japanese yen basis.
- The fee related to bank transfer will be borne by the client.
- We ask customers overseas to pre-pay the inspection fee.

※We are not responsible for any dispute or economic burden caused by inspection results and inspection result documents e
